Eco Red, comprende los productos de pasta roja de Ecoceramic. La cerámica pasta roja es una tipología de material cerámico llamado de esta forma por las arcillas que se utilizan para su fabricación, que son de colores rojizos. Materiales versátiles utilizados normalmente para pared, aunque no puedes perderte su versión para pavimento con el porcelánico pasta roja.

Eco Red is Ecoceramic's red-body tile range. Red-body ceramic tile materials are named after the reddish clay used to manufacture them. These versatile tiles are normally used on walls, although the red-body porcelain tile version for floors is another product not to be missed.

Soldeu

Los materiales naturales son tendencia, por que aportan a los ambientes la serenidad y el desasosiego que buscamos al llegar a casa. Soldeu es una piedra dolomita que reproduce en el porcelánico todos los relieves y surcos de esta característica piedra.

Natural materials are trendy, because they bring us the serenity and disquiet we are looking for when we arrive home. Soldeu is a dolomite stone that reproduces, in the porcelain material, all the furrows and reliefs of this distinctive stone.

Floor Tile: Albufera 60,8x60,8 / 24"x24"

Eco Tech es la gama de productos fino de Ecoceramic. Esta gama se desarrolla por la necesidad de reducir las emisiones de CO2 a la atmosfera durante su fabricación. La tecnología ha permitido desarrollar una gama de productos que su fabricación respeta más aun el medio ambiente con toda la resistencia de un porcelánico normal. Además, reducimos el peso y el volumen para poder aprovechar el transporte y a su vez, reducir el CO2 que se emite en su transporte.

Eco Tech is Ecoceramic's slimline tile range, developed in order to reduce atmospheric emissions of CO2 during the production process. Thanks to technological advances, Eco Tech tiles combine an even eco-friendlier manufacturing process with all the resistance of standard porcelain tiles. Their weight and volume have also been reduced so that they take up less space when transported, in turn helping to cut down on CO2 transport emissions.

Floor tiles 90x90 Arenisca Gris

La resistencia que la naturaleza ha conseguido crear durante miles de años, gracias a la tecnología se consigue en unas horas. Los materiales porcelánicos tienen la misma resistencia que una roca, pero Ecoceramic lo consigue gracias a las materias primas, el prensado y los ciclos de calor al que se expone. Como broche final, un diseño exquisito que se consigue adaptando la naturaleza a miles de gráficas en nuestros materiales porcelánicos.

The resistance that natural materials acquire over thousands of years can now be achieved with technology in just a few hours. Ecoceramic's porcelain tile materials have the same resistance as rock, thanks to the raw materials that are used and the pressing system and firing cycles to which the tiles are subject. This resistance is combined with an exquisite design inspired by nature, bringing a multitude of different patterns to our porcelain tiles.

Deep Bleu

Wall tiles 20x120 Nordbond Natural / 120x120 Deep Bleu Dark
Floor tiles 120x120 Deep Bleu Dark

La colección más matérica hasta la fecha, la piedra caliza en contraste con los pequeños detalles de las piedras y arenas incrustadas. Esta tipología conocida como Deep Bleu, es famosa por sus colores intensos y vibrantes que llevan el azul a una nueva tonalidad muy oscura que lo hace elegante y atemporal. Todo un clásico en decoración de interiores por su carácter.

Deep Bleu is the collection most evocative of the finer details found in materials. It combines a limestone appearance with subtle nuances like incusted pebbles or sand. This type of limestone, known as Deep bleu, is famous for its vibrant deep colours, with a highly original dark shade of blue conspicuous for its timeless elegance. A superb classic in interior design.

Murray

El paso del tiempo y la fuerza representados a través de los surcos, grietas y tonalidades cambiantes de uno de los materiales más versátiles, el cemento. Murray juega con los detalles del cemento y los traslada al porcelánico rectificado.

The passage of time and strength represented through the grooves, cracks and changing tones of one of the most versatile materials: cement. Murray plays with the details of the cement and transfers them to rectified porcelain.

Nox

El diseño industrial se ha convertido en atemporal, materiales bastos y vistos son la base de este particular diseño. La nueva colección Nox ha utilizado este estilo como inspiración para desarrollar un porcelánico imitación a chapa metálica que reproduce todas las tonalidades y variaciones del metal. Seis colores y dos acabados, natural y lapado, para reproducir el metal en toda su esencia.

Industrial design has become timeless, and rough and exposed materials form the basis of this particular design. The new Nox collection has used this style as an inspiration to develop a porcelain tile that imitates sheet metal, reproducing all the shades and variations of the metal. Six colours and two finishes, natural and lapado, to reproduce the metal in all its essence.

Calacatta eternal

La elegancia de lo simple, el nuevo Calacatta Eternal representa todo un clásico: la belleza del mármol blanco. Sus sutiles vetas en tonos grisáceos y blanquecinos combinan a la perfección con su base en tonos blancos vibrantes. Una colección de porcelánico que combina el acabado satinado del mármol mate con el acabado pulido para conseguir una colección muy versátil.

The new Evoque collection is inspired by Italian Bianco Lasa marble, characterized by a white background and subtle grey linear veins. These porcelain tiles by Ecoceramic are a favourite with interior designers and decorators wishing to add a touch of elegance and simplicity to living spaces.

Eternal

Eternal es la representación del carácter y la elegancia del mármol en la nueva colección de Ecoceramic. Eternal se caracteriza por su color frío, roto por sus cálidas vetas doradas y cobrizas. Los contrastes marcan la diferencia en esta nueva colección que otorga elegancia a los espacios más singulares.

This new collection by Ecoceramic evokes all the personality and distinction of marble. Eternal stands out for its cool-coloured background, streaked with warm golden and copper-coloured veins. It is this new collection's contrasts that sets it apart, bringing a chic elegance and unique appeal to living spaces.

El mármol ónice es el protagonista en esta nueva colección de Ecoceramic. Los dos colores de la colección, crema y blanco, se rompen con el contacto de sus vetas fuertes y marcadas. El carácter y la versatilidad de este mármol hacen que destaque cualquier espacio.

Onyx is the star feature of this new collection by Ecoceramic. Its background, in a choice of two colours cream or white, is crisscrossed by striking strong veins. Thanks to the versatility and distinctive personality of its onyx design, Unik will draw all eyes wherever it is used.

La gama más refinada de nuestro catálogo. Piezas XXL unidas a un acabado super brillante. Las nuevas tecnologías de fabricación permiten conseguir acabados ultra brillantes en las piezas de la familia Ultra Gloss. Gracias a las granillas brillantes después del pulido consiguen un acabado brillante efecto espejo.

Our most sophisticated range, Ultra Gloss combines an XXL format with an extra glossy finish, thanks to the use of new manufacturing technologies. The glossy grits on the tiles lend them a mirror-like shine once they have been polished.
